

AZ Woodworkers Scroll Saw Easter Basket

1. Get a piece of pine at greater the 7" in length and width
2. Cut the pattern square and attach it to the wood with repositional glue
glue stick will work
3. Set your scroll saw table to an angle of 18-1/2 degrees
4. Make the four cuts
you now have a base and 3 rings that need to be glued closed
5. Glue rings closed and lightly sand pieces
6. Decorate ring and base with paint, felt pens, easter eye dye. etc.
I use kool aid, 4 packs for a pint, of water and soak then for 1/2 hour
7. Let rings dry and super glue all together
Start with biggest ring up side down, place next ring on top, mark intersections, then apply glue in the right places
8. Bring to Show and Tell at our next meeting
